Art Unit: 1793

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to “A process of preparing a low resistance contact”.

Group II, claim(s) 8-9 drawn to “A contact”.

The inventions are distinct, each from the other because of the following reasons:

Invention-I is drawn to a process of making a HTSC low resistance contact by specific process steps, and Invention-II is drawn to a contact with a product by process relationship wherein a does not require the technical features of the claimed method, and can be made by other methods like solder-joint with a mixture of solder particles and HTSC particles.

A telephone call was not made to request an oral election to the above restriction requirement due to the divergence nature of the inventions. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
